LONDON, Oct. 30.—(By Atlantic Cable.) A dispatch to the Times from Shanghai states that it is reported there that the Japanese have completely surrounded Port Arthur, and that the Chinese forces defending that place cannot hold out long.

AND STILL THEY COME.

LONDON, Oct. 29.—The Times will tomorrow publish a dispatch from Yokohama, saying that a third Japanese army, numbering 2000 men, is assembling at Hiroshima.

CHINESE PIRATES.

SAN FRANCISCO, Oct. 29.—Chinese pirates received by steamer contain accounts of numerous outrages by bandits and pirates in the Orient. A band of men, made desperate by the loss of crops and homes, in the recent overflow of the Liao River, have established a reign of terror.

This band is comprised of about two hundred men. By their piratical raids they have secured several boats, with which they carry on operations on the water.

During three days of the raids of this lawless band twenty men were killed and more than three times that number were wounded by them. Their operations covered a distance of nearly one hundred and forty miles along the Liao River. For protection, the boats now travel in hatches, but so daring and powerful have the robbers become that they do not hesitate to attack a number of boats at the same time, even in daylight. Four boats were attacked by one of the piratical craft, having a crew of forty armed men on September 9, near New-Chang. All valuable and arms were taken, two sailors killed and two others wounded. The cargo boats have armed their crews, and are prepared to resist the pirates.

News from Singapore tells of the robbery of a Chinese coasting-vessel bound from Singapore for the island of Lungi by Malayan pirates. A number of them took passage on the coaster, and at night attacked the ship's clerk and robbed him of about \$300 in cash. The noise made by the pirates became so great that the clerk, who had been tied up, was able to break his bonds and escape.

THE UNITED STATES MINISTER AT PEKING.

WASHINGTON, Oct. 29.—United States Minister Denby has cabled the State Department, announcing his arrival at Peking, on his return from the United States.

SANK A WARSHIP.

TACOMA (Wash.), Oct. 29.—The Northern Pacific Steamship Company's office has received word that the steamer Zambezi, formerly a Northern Pacific steamer, ran into the Japanese warship Taibu-Kan in Kobe harbor last month and sunk. The man-of-war only had time to run into shallow water before she went down. The Zambezi was recently purchased by South Carolina not authorizing any such tender nor providing any fund which can be used for that purpose.

FOND OF HATS.

A PRETTY SWINDLER Taken in Charge at New York.

Associated Press Leased-wire Service.

NEW YORK, Oct. 29.—After a search of over a month, high and low, Inspector McLaughlin's men have at last caught the pretty and plausible young woman who has been swindling so many milliners in the two cities. The girl is Millie Harrington, and she lives in Harlem. She was identified by several of her victims at police headquarters last night, after she had come to a hotel, engaged a room for herself and grandmother, saying "grandma" would soon appear with the cash and luggage.

Hurriedly taking possession of the rooms, which she stipulated should adjourn, and should both open on the hall, she would drive to a milliner's, select one or more hats, and order them sent to the hotel, together with change for a \$100 bill. She would receive the hats in one room, go to the other with the change, pretending she was going to get the big bill from the mythical grandmother, then slip out into the hall and leave the hotel never to return.

CHEAPER BREAD.

The Slump in Wheat Benefits the Consumer.

Associated Press Leased-wire Service.

NEW YORK, Oct. 29.—The unprecedented slump in the price of wheat may bring慰 to the farmer and speculator, but the situation is not so gloomy for the consumer of bread, because "cheaper wheat" is to be followed by cheaper bread. The New York bakers following the comely lead of their fellow-tradesmen in Washington, have decided to reduce the price of bread to conform to the relative price of wheat. Hereafter they will sell a two-pound loaf for 5 cents, instead of a one-pound loaf.

Phillip Raymond's Gun Explodes, Killing His Wife.

Associated Press Leased-wire Service.

WEST NEWTON (Mass.), Oct. 29.—Philip Raymond was watching last night, gun in hand, for a musket, which for several days had been making depredations in his chicken-house. He stood at the window of his house, his wife and nine-year-old boy at his side. As the animal appeared, he fired. One barrel of the gun exploded, shattering the stock and tearing the barrels to bits.

The boy sank to the floor with a cry of pain. Mrs. Raymond uttered no cry

A BRILLIANT SPEECH

Gov. McKinley Sizes Up the Democracy.

The Most Remarkable Party in History for Feathering its Own Nest.

Congressman Hall Injured—Populists Shut Out at Chicago—Senator Blackburn's Denial—Albany Democrats.

Associated Press Leased-wire Service.

CHICAGO, Oct. 29.—Gov. McKinley arrived in the city at 6 o'clock tonight, and was greeted at the depot by a large crowd of enthusiastic Republicans. After dinner the Governor was driven to the First Infantry Armory, where a crowd of about six thousand people had gathered to hear him. J. M. Smythe, chairman of the Republican County Central Committee, introduced Gov. McKinley to his audience. The great applause that greeted him lasted for four minutes. When at length he got an opportunity to speak he said:

"Two years ago a Republican national administration, which had been in power for nearly four years, which had conducted the government with singular ability and honesty and efficiency, at the head of which was one of your greatest American Presidents, President Harrison, was, by the voice of the people, voted out of power, and the Democratic party was voted in. For nineteen months, therefore, the Democrats were in control in the supreme control of every branch of the national government, and during that nineteen months Congress has been engaged in revising the tariff, and, while Congress has been revising the tariff, the people have been busy revising their votes, and from one end of this country to the other the people are burning with impatience for an opportunity to pass upon the work of the Democratic party and a Democratic Congress.

"The people have reflected, for they have had little else to occupy them. There probably has been no such revolution of public sentiment in a quarter of a century as there has been within the last twenty months. Even Northern States which has spoken has spoken in condemnation of the Democratic policy and Democratic measures, and not only is this revolution of public sentiment going on in the South, but it is certainly going on in the North. In the Lower South, two months ago, the representative men of that State, men who had hitherto been Democrats, were at last compelled to abandon that position, and by proclamation declared their adherence hereafter to the principles of the Republican party.

"This has been the outcome of this remarkable revolution of public sentiment. I can answer it in a single sentence. A Democratic President and a Democratic Congress have been running the government for nineteen months, and during that time little else has been running. Every industry has been seriously interrupted, and the entire country has been very seriously checked; labor has been less employed than for thirty years, and when employed at greatly-reduced wages. There has been no cessation in those nineteen months in the waste of wages and wages and property and in investment of it in the South. The cost of the cost to the people has been greater than the expense of the great civil war. Appeals to charity have never been so great or so incessant, and their reasonableness so well recognized.

"Congress has trifled with the sacred trusts of the people; impeded their foreign trade; injured their investments; their wealth has been harnessed and among themselves and upon their own confessions have been compromised. The Senate does not agree with the House nor the House with the Senate, nor the President with either one of them. And the people seem to be in disagreement with all three of them. They have given us a tariff law which nobody approves, who lives beneath the Stars and Stripes; a law which the President of the United States refused to sign, and the only reason he refused to sign it was because it did not endow him with power.

"The Democrats say that if we have free trade we would have things a little cheaper. Well, are not things cheap enough now? Does the farmer think that he is getting too much for his wheat?

You know very well that if the government would give a Democratic ticket and vote the Democrats into power (the farmers) would have \$1 to their wheat.

They now say they meant two bushels for \$1. Is the grower getting too much for his wool?

"The Democrats say they have reduced the expenditures in the last two years. I am Vice-President of the United States; they have saved \$28,000,000 in appropriations and \$27,000,000 of these \$28,000,000 are for pensions. The Democratic party is the most remarkable party in history. It is for anything which gives it power.

Their position in 1892 was the enemies of the people, and came into power upon their own confession that they were the willing tools of the most gigantic trust in the country. They posed in 1892 as the true and only friends of labor, and they were engaged in that year in arraying the employees against the employer in widening the chasm between labor and capital, and when they got into power they inaugurated an industrial policy that has given to labor the deadliest blow it ever had.

"The only thing the people have got power over this year is the National House of Representatives. If it is made Republican again after the summer of March next, the Democratic party will be powerless to inflict any further injuries upon the interests and industries of the country? Do your duty and the next national House will be Republican, and while it cannot take you back to 1892, it can prevent any further tinkering with the tariff, and further interference with the industries of our people."

Gov. McKinley closed his address amid tremendous applause.

HILL LABORS AT ALBANY.

ALBANY (N. Y.), Oct. 29.—A mass meeting, the proportion of which has never been equalled in Albany, was the result tonight of the fusion of the two branches of the Democracy to tender a greeting to Senator Hill, who is now a resident of this city. At least 4000 people thronged the great hall, and many more lined up outside to gain admission.

A noticeable feature of the affair was the presence on the stage, as a co-speaker with Senator Hill, of Congressman Charles Tracy, who looked upon as a personal representative of President Cleveland.

About 1500 men took part in the escort of Senator Hill to the hall, among whom were body of G.A.R. veterans and two labor organizations. In the boxes at the hall were such Cleveland adherents as Judge Hickox, collector of the port, John Masterson and Gen. Farnsworth.

The Democratic phalanx that escorted Cleveland to Washington when he was inaugurated appealed to the echo when

Amos J. Parker presided over the meeting. When Senator Hill was introduced he was received with a storm of applause. He said in part: "Two years ago in this hall I had the pleasure of speaking for the national ticket of Cleveland and Stevenson, and now again I address the united Democ-

racy in Albany county, a Democracy united for victory. I call your attention to the fact that the campaign of 1892 was one that was won on its merits, and I am convinced that we can win all our campaigns in the same way. When I made the original plan I determined that it should be as clean as that one, and I have no time to notice every dog that barks at my heels, despite the fact that the orators of the other party are violent and vicious in their attacks. I can stand or I can fall on the principles and the platform of my party, and not deal in personalities."

He paid his respects to the constitutional convention in about the same strain as at other places, and denounced the apportionment proposed as a purely partisan measure, saying that it was expected that it would be voted down without their host, and that why he thought David B. Hill should not be elected Governor of the State of New York and why Everett Wheeler deserved unite it."

Speaking of the short visit of Gov. Schurz, "a great struggle going on, which is to decide whether the city of New York shall be owned by the inhabitants thereof or by Tammany Hall. It has long been popularly believed that Tammany Hall is a nest of rapacious freebooters. Recently the city has been visited by a man beyond popular expectation. The good citizens of New York concluded at last that it was time to make an end of this. Tammany chief became alarmed. Their head chief, Croker, took to his heels. He had gathered up the princely fortune he had made out of his revenues as "King of New York and retired as a Tammany sage." But the other Tammany chiefs were not so comfortably settled. They felt themselves put to their wits' end and tried various devices. They sang the song of harmony as sweetly as any cooling dove. They would swear off all selfish designs. They would nominate a high-toned citizen as Mayor. They even indorse a ticket nominated by Reform Democrats. They would do anything to make people forget the tiger's teeth and claws until after election.

"The salvation they could not expect to win directly in New York they might expect by flattery in Albany. They brought their trusty confederate, D. R. Hill, to the trial, but it is certainal going on in the South. In the Lower South, only two months ago, the representative men of that State, men who had hitherto been Democrats, were at last compelled to abandon that position, and by proclamation declared their adherence hereafter to the principles of the Republican party.

"The idea which Mr. McKinley intends to convey to the people in some sort of political arrangement is to be made out of politics. I repudiate any such sentiment as demoralizing, and as repugnant to the spirit of our form of government. He wants us to understand that money can be made out of the tariff, and hence the tariff should be enlarged, and that the revenue may be used judiciously. But it will speak of the tigress' teeth and claws until after election.

Every industry has been seriously interrupted, and the entire country has been very seriously checked; labor has been less employed than for thirty years, and when employed at greatly-reduced wages. There has been no cessation in those nineteen months in the waste of wages and wages and property and in investment of it in the South. The cost of the cost to the people has been greater than the expense of the great civil war. Appeals to charity have never been so great or so incessant, and their reasonableness so well recognized.

"Mysterious" Billy Smith and Dick O'Brien—Sensation in the Sweet Trial—Selling Races at San Francisco.

Associated Press Leased-wire Service.

CONEY ISLAND (N. Y.) Oct. 29.—With threatening police interference, a previous postponement and a very light card, it was not to be wondered that tonight's assemblage at the Seaside Athletic Club was meager. At best there were not more than a thousand people in the building. Tim Hurst, the well-known baseball umpire, was referee. The bout of the evening came after several contests among the lesser lights. It was between "Kid" Lavigne of Saginaw, Mich., and Johnnie Griffin of Braintree, Mass. At 124 pounds, for fifteen rounds, Lavigne's seconds were Sam Fitzpatrick, Jimmy Carroll, Jim Collier and Billie Lavigne, those in his opponent's corner being George Reynolds, Bill Rowley and Charley White. The contest began at 10:30 o'clock.

First round—Both men were wild, although Lavigne got in a couple on the body. When time was called there was little to record. Griffin did not look well, and handled himself badly.

Second round—Lavigne did almost all the fighting, being especially effective with the left.

Third and fourth rounds—it was worse for Griffin, but he took his punishment gamely.

Fifth and sixth rounds—These were to the same effect. In the latter both slipped down, and Griffin left off with much the worst of it.

Seventh round—Lavigne fought him all over the ring. Griffin gamened was remarkable.

Eighth round—This saw matters much the same.

Ninth round—Griffin aroused himself a bit.

Tenth round—Griffin got in a few good right-handers.

Eleventh round—This round gave Griffin back another ray of hope, as he freshened wonderfully, but was very tired and weak at the close.

Twelfth round—Lavigne began to bleed from the nose, and showed visible signs of weakening, while Griffin made many fruitless game attempts.

Thirteenth round—There was some terrible fighting, and Lavigne developed some wildness in his hands.

Fourteenth round—Lavigne went at it wickedly and downed his man. Griffin was up before the limit expired, but was met with a rain of blows. Three times he was all but out, but the song sent him to his corner again.

Fifteenth round—Lavigne rushed and downed Griffin as soon as the men reached the center. Then the police interfered. Lavigne was declared the winner.

FEARED THE "KING."

New Testimony in the Sweeney Trial by a Former Witness.

Associated Press Leased-wire Service.

SAO FRANCISCO, Oct. 29.—The trial of Charles Sweeney, the well-known ball-player, who shot and killed "Con" McManus in the notorious McManus' saloon on Third street, developed the promised sensation this afternoon. Joseph McDonald, who testified against Sweeney at the preliminary examination, told of the row in the saloon. He said that McManus threatened Sweeney when the latter refused to take another drink, and placing a pistol at Sweeney's head, said he would kill him. Sweeney then shot him.

McDonald was then asked why he gave different testimony at the Coroner's inquest and in the Police Court. He replied: "Because I was in fear of 'King' McManus. After the shooting the 'King' got me to rehearse my testimony. When I told it to him straight he called me name and said he would knock my—head off if I testified for Sweeney."

The "King" is Frank Murphy, the notorious ward politician and saloon-keeper. He is the man who threw bricks through the doors and windows of the parish-houses because a Catholic priest had conducted his brother's funeral without all the solemnities which the McManus clan had demanded. "King" Murphy has had many trials, charged with crimes ranging from drunkenness to attempted murder, but he has never been punished for any of the more serious crimes charged against him. McManus was in the courtroom during the giving of McDonald's testimony.

THE SACRAMENTO WRECK.

Testimony Showing Worden's Disposition to do Mischievous.

Associated Press Leased-wire Service.

WOODLAND, Oct. 29.—The taking of testimony in the Worden trial was resumed today. Chief of Police Drew of Sacramento testified to arresting the defendant and finding tools concealed in a pile of hop-poles. Two farmhands named Carnegie and Downs testified that they heard an explosion, and saw the train fall from the trestle.

J. C. Bryant, an ex-striker, said he was sent to the trestle with food, and that the men who had been arrested told him that "Dynamite" did mean Worden.

But Worden went out with fifteen men armed with rifles.

J. D. Ramsay, testified that at an A. R. U. meeting the night before the wreck, Worden exclaimed "giant powder"—it being understood that it was to be used in stopping trains.

M'KANE'S APPEAL.

Arguments Heard at Albany—The Points Raised.

Associated Press Leased-wire Service.

ALBANY (N. Y.) Oct. 29.—Arguments on the appeal of Joseph Y. McKane from the sentence of six years' imprisonment for procuring a violation of the election law by inspectors of election, were heard by the Court of Appeals today. One point upon which the application is based is that the section under which the indictment was found applies only to election officers, and as McKane was not in that category, it was not applicable in his case.

Mr. Hartnett nearly fell off his high chair. Although the crime was committed several years ago, the sergeant had not been indicted for the arrest of Tascott, and here before him at his desk stood the much-wanted Willie. After Sgt. Hartnett had recovered from the first shock he began to pester the man with questions regarding the conduct of the investigation. The fellow, who turned out to be a poor outcome in search of a night's lodging, was well versed in the details of the crime. He had the date of the murder and the number of the Snell mansion on Washington Boulevard at his fingers' ends, and he knew all about the gun fight on the stairs.

For a few minutes Hartnett was in doubt whether the man was telling the truth or not, and he was about to lock him up, when Lieut. Collins entered the station. The Lieutenant took the self-confessed murderer by the hand, and just put this question to him: "Do you know who is the man?" Collins was sure that the man was not Tascott, and that his knowledge of the case had been obtained from the newspapers. Thereupon the fellow was turned loose, and told to look for lodgings elsewhere.

SPARTA (Wis.) Oct. 29.—Samuel S. Buxton, who was arrested on Saturday on a charge of having murdered Mary Jones, a maiden lady, at her home a few miles from this city, on October 21, where she was found hanging by the neck, has confessed the murder. A preliminary hearing was held this morning, soon after midnight, when he waived examination. He was at once removed to Sparta, fearing being entertained that a mob might attempt to take him from jail.

THE MAYOR'S OFFICE.

The position of mayor of a city is one that has always been regarded as an office of great honor—as a signal evidence of the esteem in which the incumbent is held by his fellow-citizens. This has been the case for centuries. In the city of London there are attached to the office of Lord Mayor many exceptional privileges, and the incumbent is usually knighted by the sovereign after his year's term of office. The salary of the office is the same as that which is received by the President of the United States, but with rare exceptions, the Lord Mayor spends more than that amount during his term of office in banquets and entertainments to distinguished visitors, often including royalty.

In Germany, also, the position of burgomaster, even in a small town, is one of great honor, the goal of a successful citizen's ambition after he has acquired a competence, for in Europe people have not become so civilized as to seek such an office for the sake of financial profit.

Besides the responsibilities which attach to the office of the mayor, in his capacity as a watchful guardian of the city's financial and other interests, there falls to him the task of being official host of the city whenever distinguished visitors, deputations, or conventions come this way. Probably there is no other city in the United States of the size of Los Angeles that receives so many visits of this kind in the course of a year.

It goes without saying that a man to represent a city like Los Angeles as chief magistrate should not only be "trusted, tried and true," but be a man who has for many years been identified with the growth of the city—a broad-gauge man who is respected and liked by the great mass of citizens of all political parties. The mayor of a city bears some relation to the captain of a ship, or the general of an army. To elevate to either of those positions a man who has not yet served his time and made a good record as a subordinate is not good policy, either from a naval, military, or a municipal standpoint.

In Henry Hazard the people of Los Angeles have a candidate for Mayor who has been identified with the growth of the city, who has done much to further its progress, who has already made a good record in the Mayor's chair, who is respected and liked by citizens of all political faiths, and whose name is a synonym for honesty and moral courage. In electing him we will be taking no chances.

A DESERT LAND SCHEME.

Few people are aware that while the open attempt to induce Congress to grant the desert lands to the States and Territories in which they are situated was unsuccessful, the desert land laws were so amended as to permit hereafter individual States to reclaim arid territory, provided they expend three millions. The land will be sold by the government to the States at the rate of \$3 per acre, and after it has been made productive by irrigation the ostensible purpose is to subdivide it and sell it in parcels to intending settlers. We say "ostensible purpose" because there is a dangerous possibility here that the land, after the State shall have paid for it, may pass under some excuse or other, into the hands of speculators, who will charge prices for the land that will keep it out of the reach of the average home-seeker.

The coming Legislature will have the job of appropriating funds for the location and purchase of arid lands in California which can be irrigated by the sinking of artesian wells, or otherwise. A San Francisco paper announces that in anticipation of such an appropriation a civil engineer named J. T. Flynn is here from Oregon to examine the deserts in the southern part of the State to make locations and to recommend the purchase of lands that can be reclaimed by the Legislature.

This project will need careful watching by the people of the State. The Times has from the beginning strongly and persistently opposed the handing of the desert lands by the States and Territories, because it offers too many opportunities for what is generally known as "boodling," and because past experience shows that experiments in that line have invariably been failures. However, a certain clique, with the pecuniary interest of wolves who smell a carcass, have succeeded in partially effecting their purpose in a

whipped before cold weather puts an end to active hostilities. The success of the Japanese arms is a striking illustration of the superiority of organization and discipline over superior numbers which are lacking in discipline. It is civilization against barbarism, and civilization is winning all the victories.

One week from today the people of this nation will be called upon to decide whether they desire a return to the prosperous times which preceded the election of Grover Cleveland, or a continuance of the depression and ruin which have rested upon the country since that unfortunate event. Those who desire prosperity will further that end by voting the Republican ticket. Those who prefer adversity and disaster will act in accordance with that preference by casting their ballots for Democratic candidates.

The spokesmen for the Democratic party who are endeavoring to defend the present tariff law are having a hard time of it. They are not only obliged to defend the law against its own glaring inequalities and its ruinous effects upon American industries, but they are called upon to defend it against the caustic criticisms of Grover Cleveland, Chairman Wilson, David B. Hill, and other high priests of the Democratic faith.

Farmers in various parts of the country are fattening their hogs on wheat, in blissful ignorance of the enormous profits which await the sale of this wheat in "the markets of the world," according to the Cobden theory. Your farmer doesn't go very much on theory; but he knows that forty-cent wheat pays a better profit in the form of hog meat than it does as "raw material."

In his Turnverein Hall speech Senator White declared that "when Mr. Cleveland was elected the panic had practically begun." If the Senator had said that the beginning of the panic was coincident with the election of Cleveland he would have stated the case concisely and truly. There was neither panic nor suggestion of panic prior to the election of Grover Cleveland in 1882.

Gov. McKinley suggests a joint debate between Senators Hill and Murphy of New York, as the former voted against the Gorman-Wilson bill and the latter for it if all the Democrats who disagree on the subject of the new tariff were to hold joint debates, there would be no chance for Republican speakers to get a word in edgewise.

There was a rumor on the streets last night, which had not been verified up to the hour of going to press, that Jim Budd had telegraphed the "Boy Phenomenon" to come to Stockton at once to operate on his (Budd's) shattered reputation. The Phenomenon has plenty of nerve, but it is doubtful if even he would dare to tackle this job.

If American sheep could vote at next Tuesday's election not a Democratic Congressman would be elected in any State or Territory of the Union. The "golden hoof" would ram the entire Democratic party and would ramify the Republican party by a large majority.

\$100 check which Jim Budd didn't give to old Mr. Harrington of Ventura is still, like Mr. Budd's chances of election, a minus quantity. That is to say, it has "gone glimmering among the mists of things that were."

Motto for Democratic campaign banner: "The American sheep must go."

AT THE PLAYHOUSES.

GRAND OPERAHOUSE.—A large and appreciative audience greeted the initial performance in this city of Audran's comic opera, "The Bridal Trap," which was presented by the Benson Opera Company at this house last night.

"The Bridal Trap," as it signifies, is a distinctly French opera, which has for its plot the love and consequent trouble in store for a young count and a village belle. It abounds with catchy songs and stirring choruses, such as have made Audran's name a household word; and as well as stage comedy, probably, it will doubtless prove a drawcard to the music-loving Angelinos for the remainder of the week, especially as this is the last week of the season.

IMPERIAL MUSIC HALL.—The usual big Monday night house greeted the performers at this place of amusement last evening, and the various features were well received. Prof. Williams did some clever sketching, making pictures with such facility as to prove his cleverness in this regard. The dialogue of his turn, however, does not add to the feature, and might well be omitted altogether. Viola la Page appeared as a character dancer, and was followed by Coyne brothers, who do a most novel turn, that of tearing paper in the most artistic and graceful manner. They are also extremely dexterous, and accomplished all-round artists of the vaudeville. Via Sayne, the society soprano, sang two numbers and disclosed a voice that is sweet, strong and in the upper register extremely brilliant. She has an easy and engaging manner, a graceful figure, and a beautiful face. The shadowed dresses of the first night and her selections were not of a kind to meet the warm approval of a vaudeville audience, but that she has merit was strongly in evidence, and she may be depended upon to achieve success as a lyric singer.

Doeley and Carroll caught the house, and were recalled until they were breathless and exhausted. They do a turn in black face that is raucous, hilarious and full of glee. Doeley has a voice that is rich and resonant, and he can throw into a bit of ridiculous patter as much pathos as can a queen of melodrama.

The Sugar Trust, it is said, is to have a powerful rival in the Great White Spirit Company of New Jersey. The name of this new organization seems rather attenuated, so to speak, but perhaps it may prove to be a more substantial entity than its name would seem to indicate. At all events, the Sugar Trust has had things its own way long enough, and a little wholesome competition will be a benefit all around. The new company is likely to find it rather uphill work to fight the Sugar Trust and the Democratic party at the same time, but the sympathies of the people will be with it in the fray.

The disorganized forces of China are driven like sheep before the trained Japanese soldiers at every engagement. The war is fast becoming a farce, and unless the celestials pull themselves together soon they will be unmercifully

SECOND PERFORMANCE OF THE BOY PHENOMENON.

About the Same Line of Treatment as on the Opening Night—Several Apparent Cures are Made.

Another crowded house greeted Dr. Temple last evening at the Los Angeles, showing that the interest has not abated.

Prof. Hall delivered his short lecture on animal magnetism, and then introduced Dr. Temple and his younger brother. As before, they rolled up their sleeves to the elbow, and washed their hands in full view of the audience. This washing was repeated after each performance.

The first case was that of Mrs. A. B. Clark of No. 833 South Hill street, who for eight years had suffered from rheumatism.

At the aid of her crutch and the ushers, she struggled upon the stage, and Dr. Temple immediately commenced treatment, with that peculiar rubbing and patting motion he employs. The lady first stamped her feet, walked across the stage with the doctor, then walked alone and descended from the stage, amid great applause.

FIELD OF POLITICS.

The Republican Wigwam is Formally Opened.

The Introductory Speech Made by Gen. A. B. Campbell—A Good Talk.

The New Republican City Central Committee Holds a Short Meeting—General Political Notes.

The new Republican Wigwam, which has been erected on the lot between Fifth and Sixth streets and Broadway and Spring, was opened for the first time last night. The tent will seat several thousand people, and it was comfortably well-filled last night with many enthusiastic Republicans, some Populists and a sprinkling of Democrats. Gen. A. B. Campbell, who has traveled over the district with James McLeachian delivering stirring campaign speeches, addressed the audience.

The meeting was opened by W. H. Chamberlain, who, on behalf of the Federation of Republican Clubs, made a few remarks and then introduced Mr. Fairbank, the chairman of the event. Mr. Fairbank said: "I do not wish to take up your time by making any extended speech, but merely wish to say that this Wigwam has been erected as a result of the efforts of the Federation of Clubs, and I propose three cheers for that organization."

Three cheers were given with a will and then Gen. Campbell stepped forward to speak. His address was couched in entertaining language, and for an hour and a half he spoke steadily, frequent applause, however, interrupting his speech when particularly bright points were made. He closed with a few words which had prospered under Republican rule and a policy of protection, and quoted facts and figures to substantiate his statements.

The sayings of such Democrats as Jackson and Jefferson were referred to as being strong testimony in favor of the principles advocated today by the Republicans and as showing how insincere and untrustworthy the Democrats were in their protestations. Gen. Campbell declared that the actions of the Populists on the tariff question reminded him of the story of "the dog with a bone." This dog, he said, had a bone in its mouth, and when he started to walk across a little bridge, Chancing to look down into the water he saw his own reflection, and, thinking that it was another dog, dropped his bone and plunged into the stream. That's what the Populists did when they went after the Wilson bill. They dropped their meat and lost a shadow.

The illustrations employed by the speaker were so simple and of such a humorous tinge that they took with the audience, even though there were some Populists and Democrats present who were bit by the same spirit. Interesting scenes for providing the country with money, such as had been proposed by Jerry Simpson and Senator Peffer, were shown to be ridiculous and absurd.

At the conclusion of his speech Gen. Campbell spoke of the Republican candidate for Congress, James McLeachian, in terms of high praise and said that he felt sure that the people would see that he was elected next week. The address was listened to closely throughout, and there was vigorous applause for the speaker.

Meetings will be held every night this week in the Wigwam, which is admirably adapted for public speaking, it being possible for a person to make himself heard in all parts of the tent very distinctly while talking in a natural tone of voice.

Bower's Former Partner.

HUGH C. GRANT WAS ONCE HIS RUNNING MATE.

About two years and a half ago the police of this city were much troubled with an attorney, of the class known as "shysters," whose name was Hugh C. Grant. This man was a drunkard, and many a time the officers were obliged to bring him in to the station house and throw him in among the "rags" and other low specimens of humanity to sober up. Grant was a big, burly brute, and he would invariably fight when the policemen took him in, and for the peace of the community to take him in charge. But merely becoming intoxicated did not constitute the full measure of Grant's offense. On one occasion he went down on Alameda street and broke up about \$80 worth of furniture in one of the houses there. He lived in the Vickery Block, on Alameda street, and other lodgers in the same building claimed that at times he abused his wife horribly. The poor woman has since died, and Grant has taken himself to San Francisco.

This man Grant was the partner of Suzette C. Bower, the man whom the Populists and Democrats have nominated for District Attorney.

The old proverb that a man is judged by the company he keeps is one which will undoubtedly suggest itself very forcibly to the voters' minds when they are called upon to choose between a lawyer and a capable business man like the Rev. J. S. Miller, Maj. Donnell, and a person who allied himself with a disreputable Police Court "shyster" as a partner.

Bower is comparatively little known to members of the bar in this city, but he will undoubtedly be remembered as the associate of drunken Hugh C. Grant.

Petty Piece of Business.

But Kinney, the Democratic nominee in the Assembly, it appears, is working industriously for the position. It seems that he has got a young lady stenographer to do a considerable amount of typewriting of campaign documents.

The regular price of the work was \$21.75, but Mr. Kinney, with an eye to keeping his election expenses as low as possible, endeavored to get the young woman to sign a receipt for \$21.75, but at the same time to give her a sum of money for her work. He represented to her that the new law permits only a small expenditure for campaign purposes. The young

woman refused to sign the receipt and accept only the amount tendered, and was discharged from her position.

Political Points.

Republican mass-meetings will be held as follows tonight: The Palms, Palmdale, Long Beach, Pico Heights and at Bungalow Hall, where Gen. A. B. Campbell will deliver an address.

At the Republican Wigwam, between Broadway, Hill Fifth and Sixth streets, short addresses will be made by Hon. S. G. Millard, who has not returned from a campaign tour through the northern part of the State, and other speakers. There will be good music, and ladies are invited. The Wigwam has entrances from Broadway and Hill street.

In front of the Pyrenees Hotel, corner Alameda and Alameda streets; W. T. Millard and others will make addresses from the Republican platform wagon this evening.

The headquarters of the Federation of Republican Clubs is in receipt of communications from various parts of the country, indicating that the Federals are large and numerous present on Saturday evening next, when the Republican rally is to take place. Special trains are being arranged for from the different localities.

Spencer G. Millard, regular Republican nominee for Lieutenant-Governor, arrived home yesterday from the North. Mr. Millard represents Republicans in all parts of the State are enthusiastic, and he feels assured that they cannot but be victorious in the fight. On Saturday evening George Knight and Mr. Millard will speak in this city. Mr. Knight also arrived in town yesterday, but he left for Santa Barbara in the afternoon, where he will speak before returning to the city.

THREE WALKING DRESSES.

(From Our Regular New York Fashion Correspondent.)

The use of several colors in one dress is more acceptable for house wear than for the street, but this doesn't altogether prevent combinations of several shades for the latter, and it is not infrequently done with good effect. Ecru cloth is thus made up for the street with a black satin stock and belt and sleeves strapped with forget-me-not blue. Another handsome

outdoor costume for a slender woman has a skirt of smooth cloth, checked on white with a dark red and black stripes, and a black silk lining. A heavy black cloth skirt with coat buttons over a fitted blouse of brown silk, with high folded collar of the same. The back collar of the coat is brown velvet, and the garment fastens with gray bone buttons. For wear with the dress is a rough black belt with black lace and trimmed with blackbird. It is held in place by heavy-headed silver pins.

The artist sketches here a third example of what is current for street wear. It is a gray velvet embroidered with a jet train, and is trimmmed with a black lace belt. The bodice is entirely covered with three wide bands of the tulie which are separated by narrow velvet pleats. Bands of plain velvet bordered with jet extend over the shoulders and furnish the bracelets. The bodice is alike in back and front, fastened with a wide belt. The skirt is a full one, with the lower hem spangles. The belt is adorned with two bows at the bottom. The gored skirt and sleeves are untrimmed.

A point which is often forgotten is that belts are only advisable for women with slender hips. The popular belts, however, can be sized by one's delicate build.

It is still a pretty notion of the women to have a sober colored skirt with brilliantly plaided silk. As to the length of walking skirts, they should just clear the ground, but the first thing we know, young women will take to walking in their blonde gowns, and then who will say what the length of the walking skirt is.

The Single Taxers.

A full house listened to Rev. R. M. Webster and Clarence A. Miller present the merits of Socialism and single tax respectively, at the Single Tax Club's meeting in Unity Church last evening. Mr. Webster contended that under present conditions the people who produced the wealth received but a small share of it. The single tax would be inadequate to remedy this wrong. It would only wipe out land monopoly, which he admitted is wrong; but would leave the competitive system of capital untouched.

Socialism proposed both the nationalization of land and the powers of production. It is against competition, because it begets enmity and favors co-operation.

Mr. Miller, in reply, contended that the single tax was a remedy for all inequalities, except those that are natural and which no government can cure. It recognises that land could not be justly private property, while the products of labor could. The reason the workers do not get a fair share of their products is that they now compete under the condition of special privilege. Abolish the latter and each man will get what he earns.

SANTA MONICA.

The Death of S. T. Barckman—Local Happenings.

SANTA MONICA, Oct. 29.—(Special Correspondence.) This community was shocked on Monday morning to learn of the death of S. T. Barckman, which occurred at 10 o'clock Sunday night.

On Sunday morning he was apparently as well as ever; about 10 o'clock he suffered a paralytic stroke, but not more severe than others he has suffered. The physician, however, discovered that a small aneurism had developed in the brain, which followed twelve hours later, was not unexpected. Mr. Barckman was a native of Pennsylvania, and was 62 years old at his death. He has lived in Santa Monica since 1888, and leaves a widow and two sons, J. Ross and E. E. Barckman.

Mr. and Mrs. Charles L. (Pete) Lodge, No. 3, A.O.U.W., and his wife maintained his membership uninterrupted for more than twenty-two years. The funeral will occur from the family residence on Third street at 10:30 o'clock Tuesday forenoon.

Another large fire raged in the mountain town on Monday, filling the air with smoke.

A. E. Ade retires from the employ of the express company, but will continue to look after the laundry business here.

It is hoped that the citizens will turn out and give the local Republican rally a good attendance Tuesday evening. There will be a program of music, and Messrs. Weise, Will and Dickson will occupy the time allotted to speaking. There will be instruction for all shades of political opinion in Mr. Weise's talk upon the proposed constitutional amendments.

This (Monday) evening is No. 5 for the march and gives the town structures a additional night of fun. Under the old system of weekly meetings October would have seen five, but under the first and third Monday rule two did the business.

L. A. Sheldon was among Santa Monica visitors who transacted business in town on Monday.

The present and newly-elected officers of the Methodist Sunday-school are: C. L. Moore, superintendent; A. Mills, assistant; Thomas Brown, secretary; N. A. Smith, treasurer; Roman Angell, librarian; Eva Parker, organist.
